

OPERATIONAL INTELLIGENCE SOLUTIONS

DIGITAL TRANSFORMATION LAB

March 29, 2022

Dr. Giorgos Papapanagiotakis

CEO

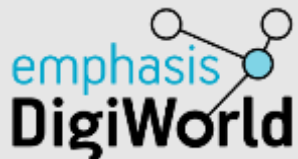

TEAM

With proved experience on deploying digitalization and creating competitive advantage for our customers

Dr. Giorgos Papapanagiotakis CEO, working +25y in digitalizing food, cement, mining industries and logistics

Team of 14 engineers with know-how on cutting-edge IoT /cloud technologies and creating business value

UNIQUE PROPOSITION

We are Industry Focused:

We speak the language of our customers

We ensure Deployment Success:

We know how to change the culture and turn digitalization into impact and profit

OUR CONCEPT

REAL-TIME SENSOR BASED OPERATIONAL INTELLIGENCE

Field Raw Data

Business

Disruptive Business Models
& Processes for Efficiency,
Safety, Quality & Cost

We enhance the business value of our customers, by integrating cutting-edge technology solutions to their operations

We work as a team with our customers to digitalize their business processes and maximize the impact of data driven decisions

From designing to deployment, we offer Industrial Internet of Things and Cloud solutions for sensor based operational intelligence in logistics, mining and industry

TF^{FOOD}

Preserve milk quality
IoT/cloud solution for farmer milk tanks

TFOOD SOLUTION

MILK TANK SENSOR DATA DRIVEN OPERATIONAL INTELLIGENCE

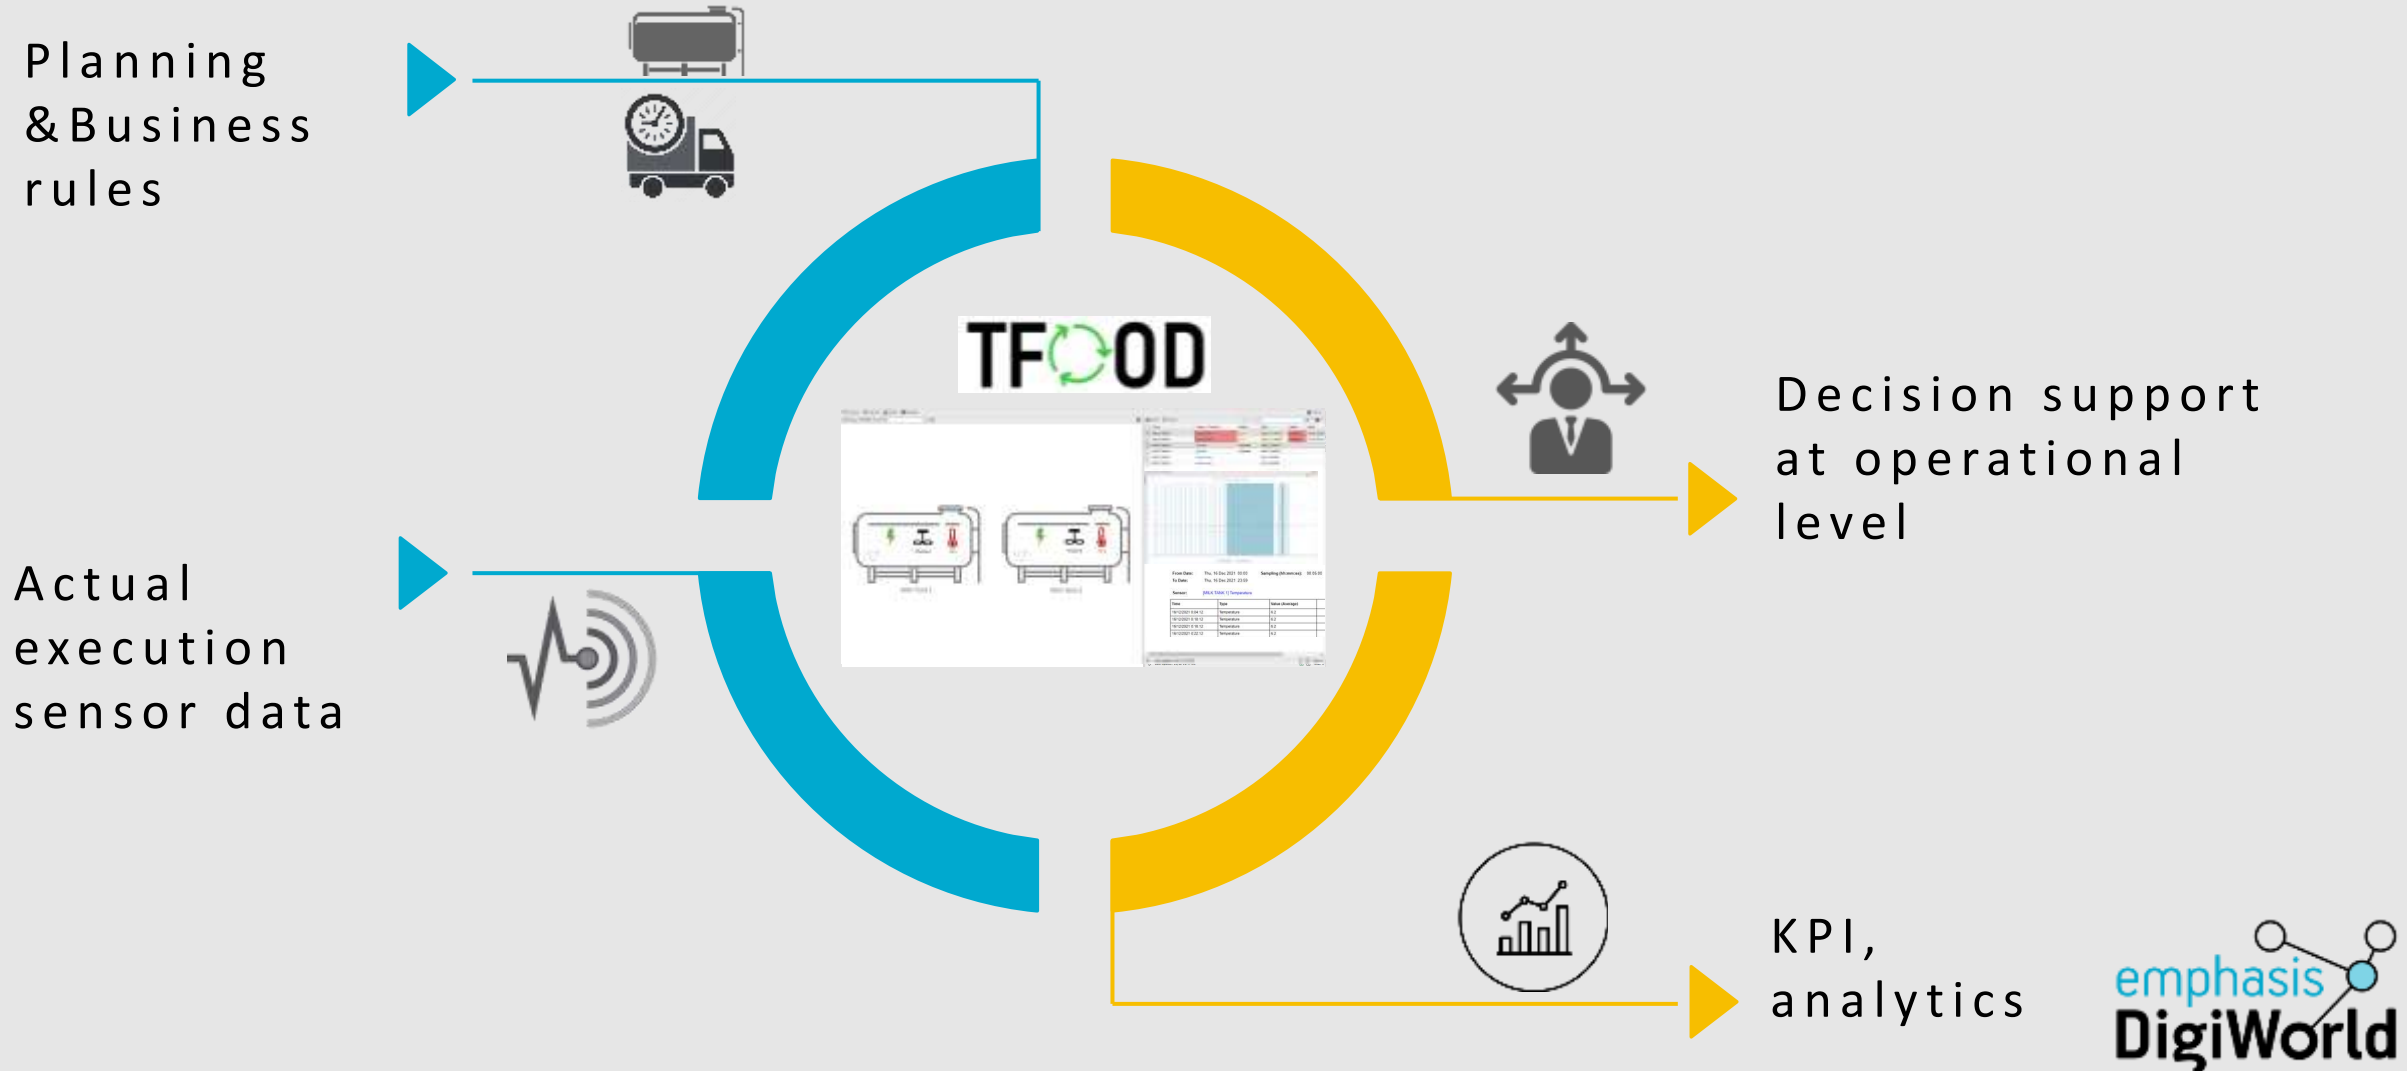

- Monitor milk temperature
- Monitor agitator operation
- Monitor power
- Intelligent notifications to farmer / supervising personnel
- Reports on
 - Milk environmental conditions
 - Predictive maintenance

TFOOD equipment is adaptable to different tank types open / close

BOOST PERFORMANCE

COMPARE PROCESS PLANNING TO ACTUAL EXECUTION

TFOOD SOLUTION

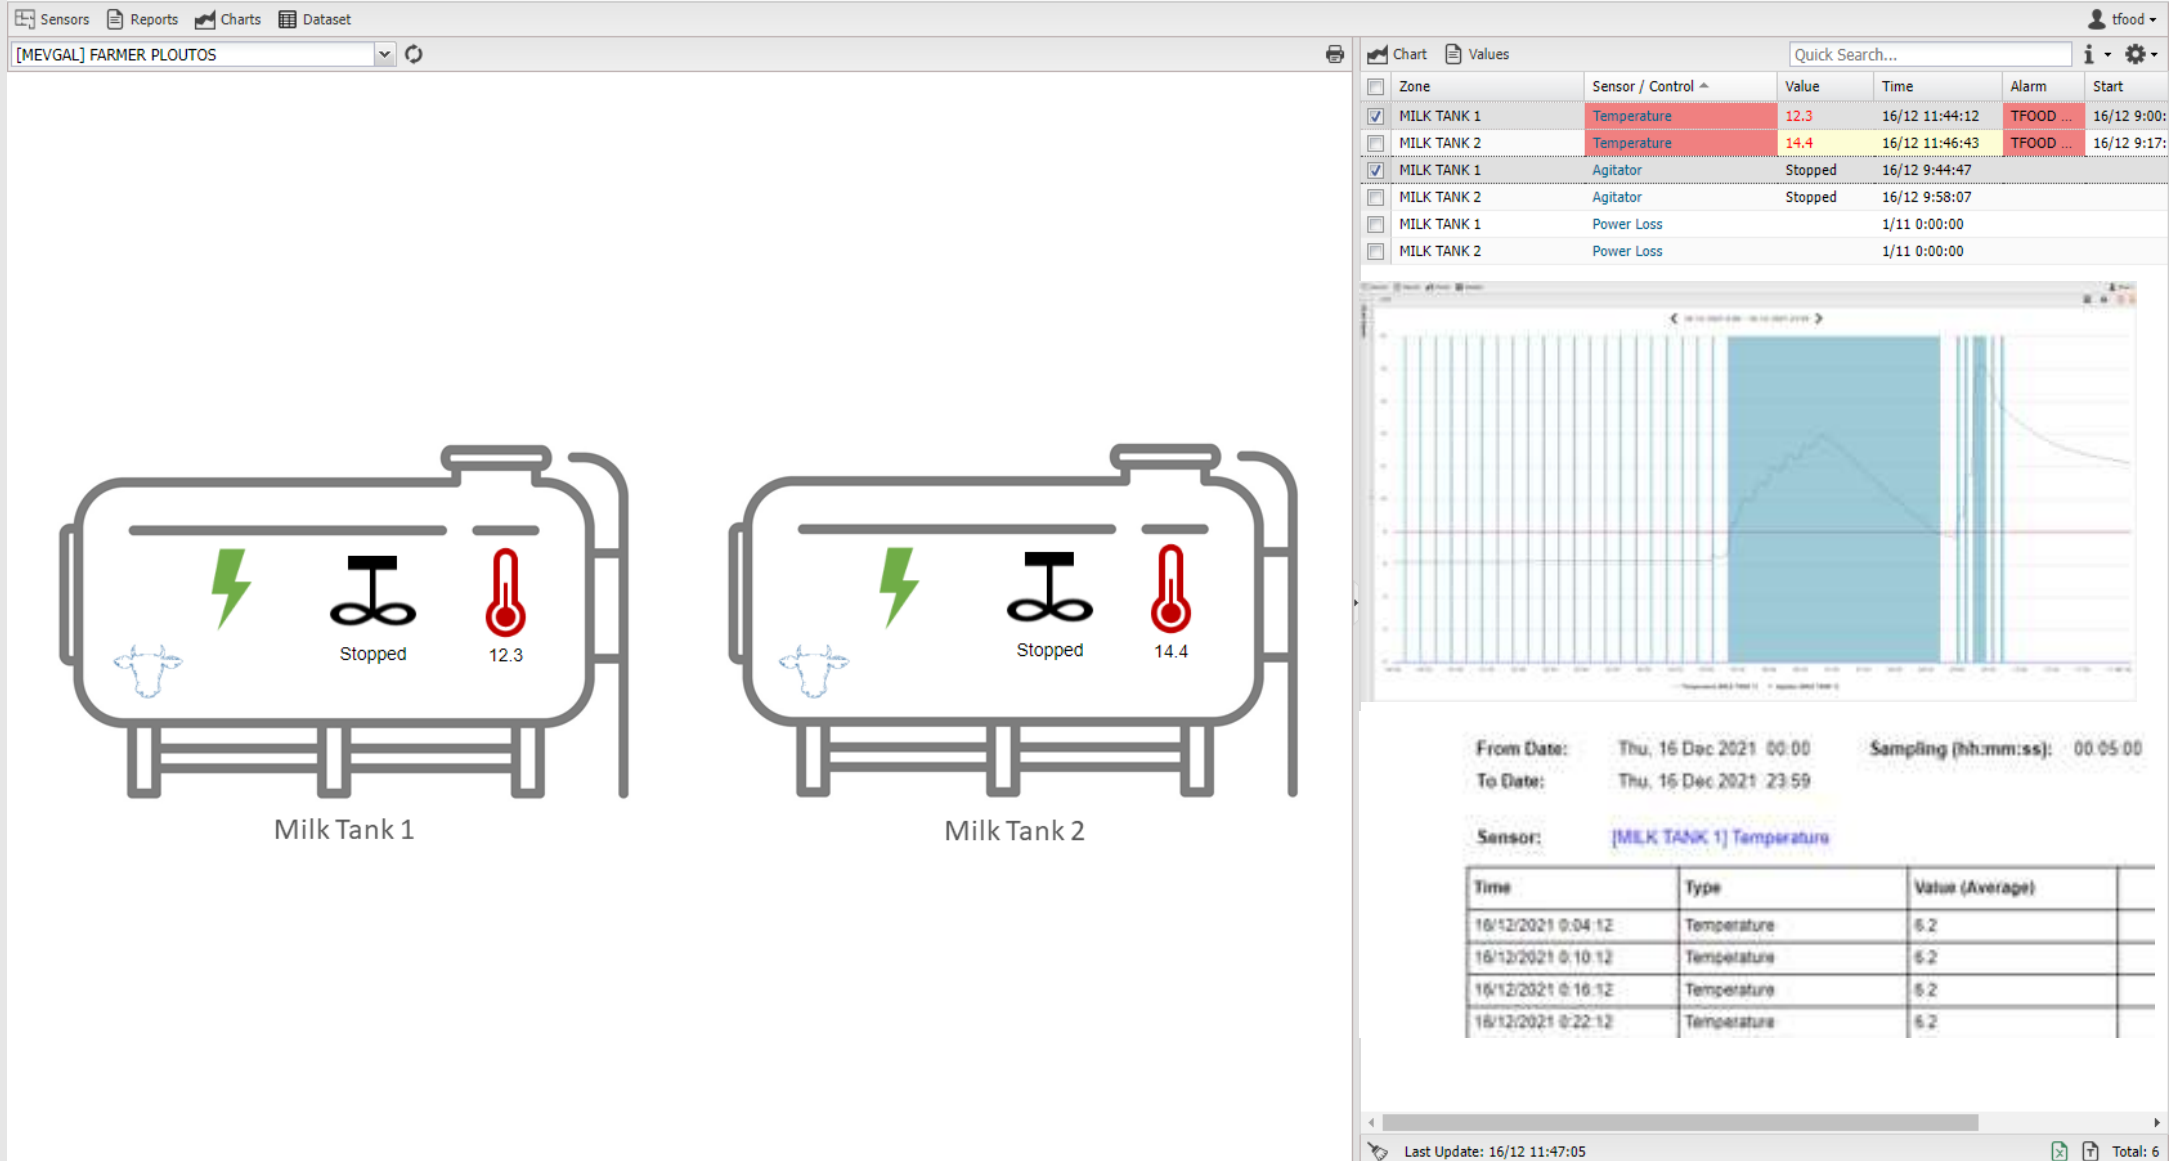

IIOT EQUIPMENT FOR INSTALLATION ON THE MILK TANK

- Low-cost solution to facilitate large scale deployment
- Equipment with easy and fast installation/setup

TFOOD SOLUTION CLOUD PLATFORM

THE BENEFITS FOR THE DAIRY INDUSTRY

- Increase milk quality
- Save costs of perished milk
- Optimize use of technical support resources

OUR OFFER

- Engineering services to adapt the solution to your requirements
- Web cloud platform
- IIoT equipment to connect your assets
- Training & consulting services
- Installation and after-sales services
